## INTRODUCTION

*Statement of Purpose*  
1

*Summary of TV Development in Thailand*  
2

*Summary of Conceptual Frameworks of the Study*  
4  
  - Globalisation, Network Society  
  - Digital Television  
  - Communication Policy & Thai Policy Development  
5

*About Research Project*  
6  
  - Objectives of the Thesis  
  - Outline of the Thesis  
7

## CHAPTER 1

**GLOBALISATION AND NETWORK SOCIETY**  
9

*An Interdisciplinary Discourse on Globalisation*  
9

*Pro versus Cons: An Internationally Controversial Debate on Globalisation*  
16  
  - Pro Arguments  
  - Con Arguments  
19

*Network Society and Fast Capitalism*  
22

*Global Communication Industry*  
29

*Summary on Conceptual Framework of Globalisation and Network Society*  
32
CHAPTER 2
DIGITAL TELEVISION

Global Digital Television in Brief 41
Digitalisation of Communication Technology 49
   The Revolution of Communication Technology 49
   Contemporary Concepts of Digital Television 57
      Basic Principle of Digital Broadcasting Technology 58
      The Correlation of Contemporary TV Viewer and Modern DTV 60
      Impact of Digital Television on TV Business 66
      Challenges of DTV for TV Broadcasting Industry 68
   Summary on Conceptual Framework of Digital Television 70

CHAPTER 3
COMMUNICATION POLICY AND DEVELOPMENT OF THAI TV 72

Part 1: Communication Policy 72
   Defining ‘Policy’ 72
   ‘Vertical’ and ‘Horizontal’ Paradigm of Policy Making 77
   Elite Theory: Policy as Elite Preference 79
   Conceptual Framework and Development of ‘Communication Policy’ 80
   Broadcasting Regulation and System 84
   Contemporary Concept of Communication Policy (1990s-Present) 86
   Trends of Communication Policy in 21st Century 97

   The Establishment of TV in Thailand (1950-1980) 102
   Thai TV Broadcasting Policy and Regulation 112
   Impediments To Thailand’s Digital Broadcasting Transition 116
   Summary on Conceptual Framework of Communication Policy and
   Development of Thai TV 120

CHAPTER 4
RESEARCH DESIGN 123
   Key Research Questions 123
   Premises of the Thesis 124
Research Approach and Methodologies Utilised  
(1) In-depth Interview  
(2) Observation  
Characteristics of Thesis Participants  
Research Instrument  
Data Presentation  
Researcher’s Preparation Prior to Observation  
Research Sites  
Field Studies and Data Collection  
Data Presentation  

CHAPTER 5  
RESULTS – DTV: THAILAND AT THE CROSSROADS  
Part 1: Major Drives of Transition  
Part 2: Benefits and Disadvantages of DTV  
Part 3: DTV and Public Interest  

CHAPTER 6  
RESULTS – NATIONAL DTV POLICY AND TRENDS  
Part 4: National DTV Policy and Regulation  
Part 5: Trends of DTV in Thailand  

CHAPTER 7  
RESULTS – THAI TV STATIONS  
IN TECHNOLOGICAL TRANSITION (PART 1)  
True Visions  
Channel 3  
Channel 7  
MCOT 9 (Channel 9)  

CHAPTER 8  
RESULTS – THAI TV STATIONS  
IN TECHNOLOGICAL TRANSITION (PART 2)  
Channel 5  

v
CHAPTER 9
DISCUSSION AND CONCLUSION 312
Part 1: A Revisititation to the Research Aims 312
Part 2: A Summary of the Results 313
  2.1 A Conclusion on Key Findings from the In-depth Interviews 313
  2.2 A Conclusion on Key Findings from Observations 323
Part 3: A Summary of the Significance of the Premises 334
Part 4: Discussion and Conclusion 335
  4.1 Discussion on Correlation between Theories and Research Results 335
  4.2 Discussion on Research Results 339
  4.3 Conclusion and Recommendations for Future Study 346

BIBLIOGRAPHY 348

APPENDICES

Appendix 1A: Final Ethic Review Approval
(HE25NOV2005-D04374C), 3 February 2006

Appendix 1B: Ethic Review Approval (Approval of Amendment to Protocol)
(HE25NOV2005-D04374C), 21 September 2006

Appendix 2: Information and Consent Form

Appendix 3: Questionnaire

Appendix 4: A Request for Conducting an Observation Research Protocol
in TV Production and Broadcasting Procedures

Appendix 5: A Designated Form for Data Collection at TV stations

ABSTRACT

The evolution of television and broadcasting technology from analogue to digital brings about changes in the global television industry. This technological transition is related to a political push which is highly concerned with national public interest in relation to socio-economic forces. Thailand’s TV industry has also adopted and used digital television (DTV) technologies since the late 1990s in its TV production and broadcasting. The Thai government broadcasting regulators are expected to play a key role in launching and issuing national DTV policy. However, they seem to be involved in a conflict of interest which has negatively impacted Thailand’s DTV transition.

This study selects Thailand’s TV industry as a case study of a developing country in response to global technological transition. The thesis aims to explore major drives influencing Thai broadcasting in the shift from analogue to digital. It provides recommendations vis-à-vis the establishment of national DTV policy, and the current use of DTV technologies by Thai TV stations. The research project was conducted in Bangkok, Thailand, between October 2006 and October 2007, after the September coup in 2006. Two research methodologies employed in the study are (1) in-depth interviews with 26 experts (TV station administrators and mass communication scholars), and (2) observations of the nine TV stations.

Theoretical concepts in globalisation of communication technologies and communication policy are reviewed. The research reveals two major pushes significantly forcing Thailand’s TV industry into a newly administrative sphere. These are: (1) global push, and (2) domestic push; both are extensively addressed in this thesis.
STATEMENT OF AUTHORSHIP

I hereby state that the following thesis is entirely my own original work and has not been submitted for any other degree to any other University or educational institution. All sources of information used in this thesis have been indicated and due acknowledgement has been given to the work of others. Ethics approval has been granted by Macquarie University Ethics Review Committee (Human Research) (Reference: HE25NOV2005-D04374)
